Metallic Manufacturers

<http://www.metallicvalves.com/>

Metallic Manufacturers is having well experience in manufacturing and supplying of Industrial Valves. Our products are appreciated by the client for its rugged construction, and high strength.

About Us

Established in the year **1960**, "**Metallic Manufacturers**" is the Proprietorship Firm (Individual) Organization, internationally recognized as renowned **manufacturer** and **supplier** of Metal Valves. Our range of products are known for their quality, economical prices and our client centric approach. Our superior assortment is sourced from leading market vendors and reliable sources. We manufacture and supply an exclusive range of Industrial Product.

We acquire high-definition technological machinery and best professionals and experts of the industry to maintain the swift rate of production. We are seriously dedicated in serving and satisfying our clients with our best efforts.

Our mentor **Mr. Tanvir M. Gandhi** drives us to create sustainable client benefits. Our commitment towards delivering a qualitative line of Industrial Valves has made us reputed among our clients and we are taken for granted as client-centric organization. To survive in this era of cut throat competition, quality is an aspect we resort to and that is the only reason by which we have been able to prove our leadership in the market. We only welcome dealership queries and bulk orders.
